

COMBO

MODULAR SHOWCASE

Flexibility. Precision. Presentation at the Highest Level.

Flexible Modular Showcase System

COMBO is a modular showcase system designed for demanding museum and exhibition environments. It combines clean design with outstanding conservation performance, enabling both standalone and complex display solutions.

Designed for the Highest Demands

Maximum flexibility:

- freely combinable modules for individual concepts

Conservation:

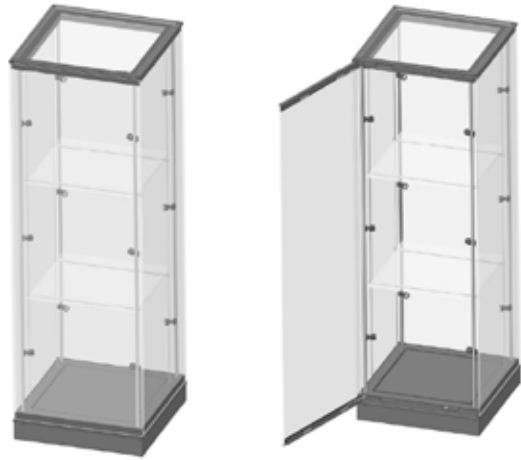

- high-grade protection with passive climate control - AER 0.1

Timeless design:

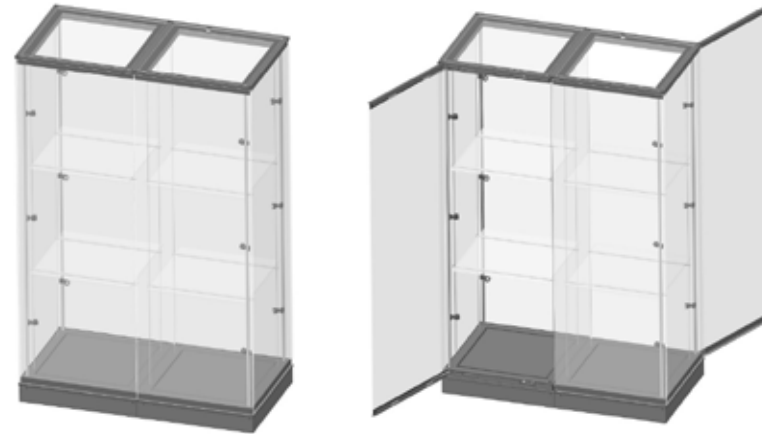

- for seamless architectural integration
- Customizable with lighting and shelving (optional)

Modularity without Limits

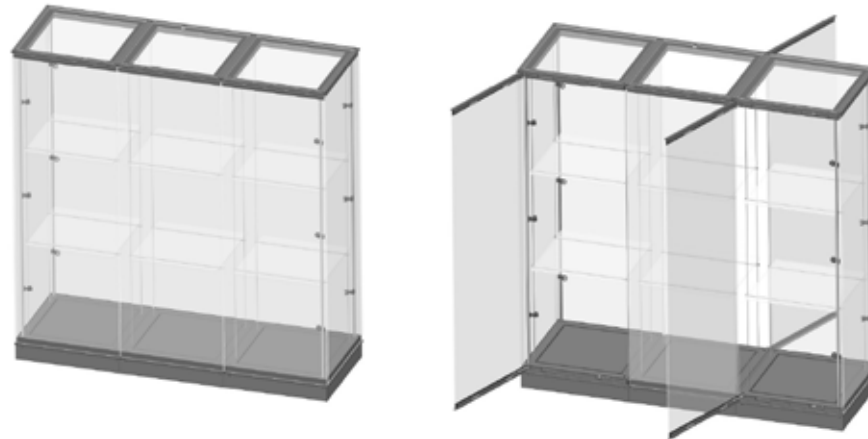

Single module

Double module

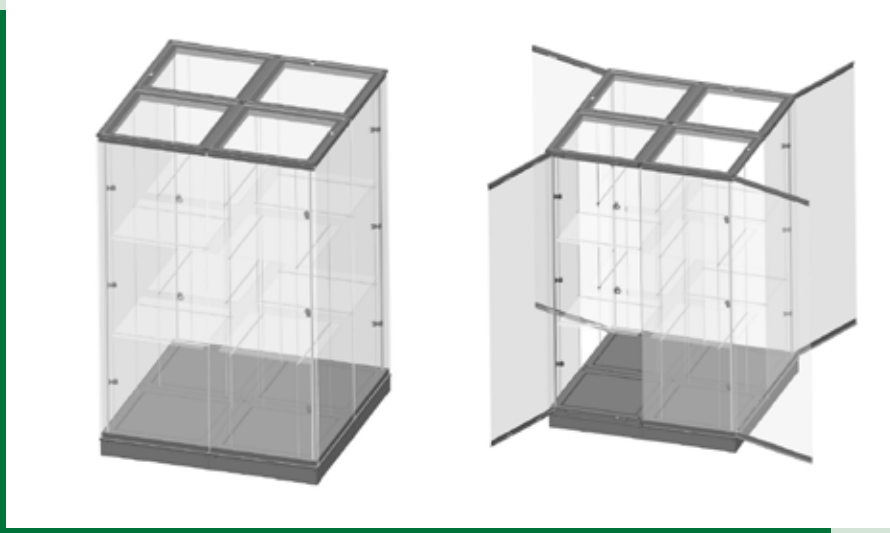

Triple module

Individual modules can be combined into a wide range of configurations – from compact units to large-scale installations.

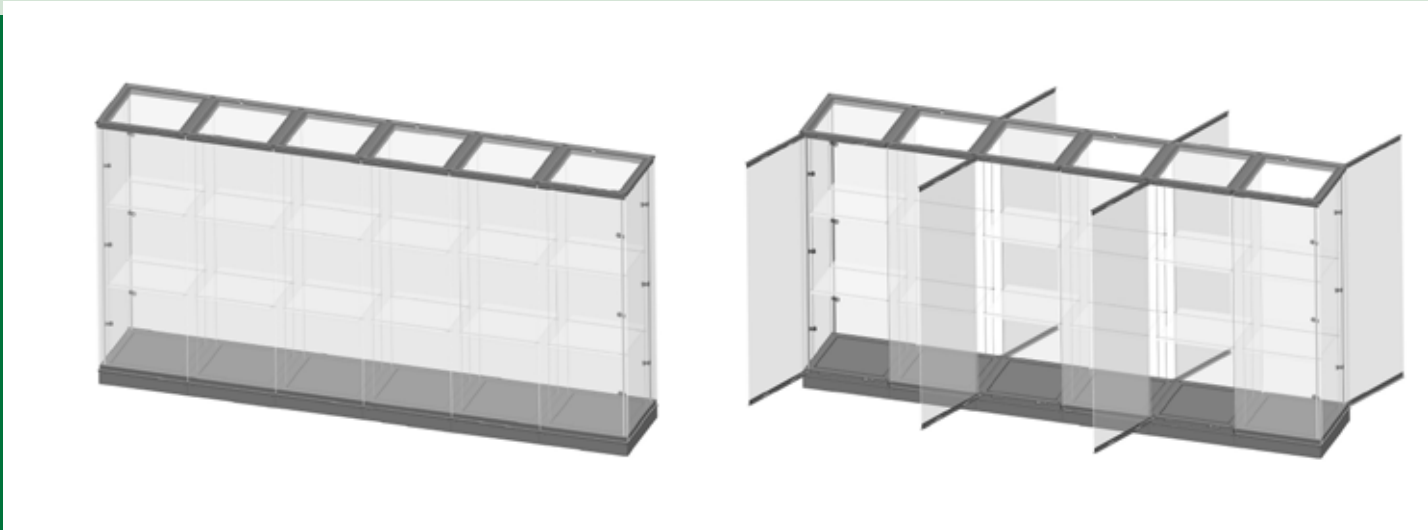

Quadruple module

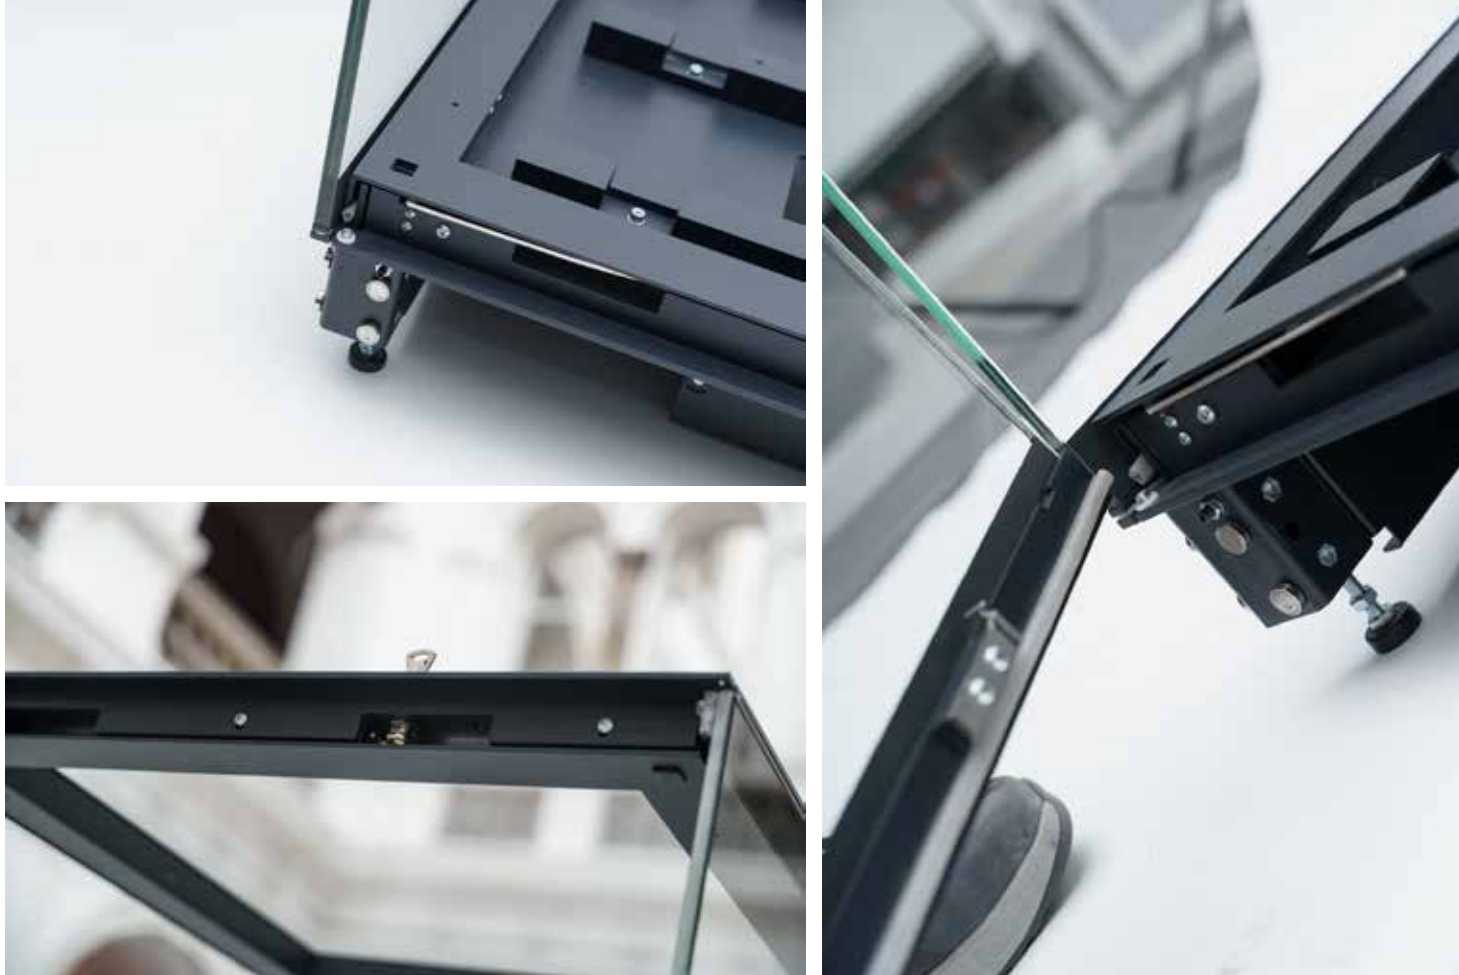

Countless
configuration
possibilities

Six modules in a row

Precision in Construction and Materials

The structure is based on precision-engineered aluminum and steel profiles. CNC laser technology and high-quality manufacturing ensure durability, stability, and seamless integration.

Ease of use meets Security

The elegant hinged door with a 110° opening angle ensures easy access.

The opening can be configured with left or right rotation.

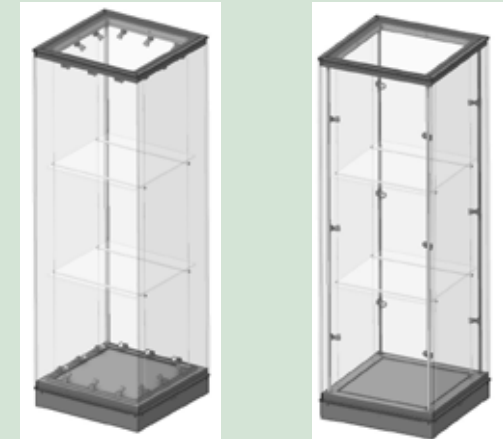

The locking system is secured with 2 Abloy Locks

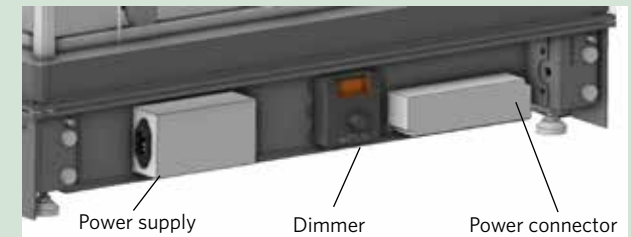

State-of-the-Art Presentation

Lighting (option 1)

Integrated lighting with precise dimming ensures optimal object presentation.

Power supply location

Shelving (option 2)

Extra-clear (low-iron) glass shelves combine stability with maximum transparency.

Shelves:

- 10 mm thick extra-clear glass
- maximum load of 10 kg per shelf

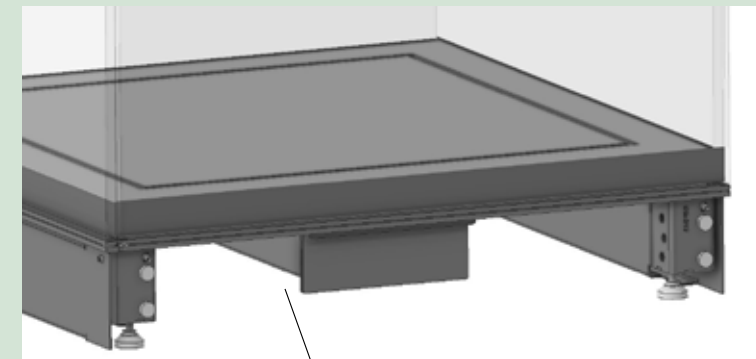

Climate Control for sensitive objects

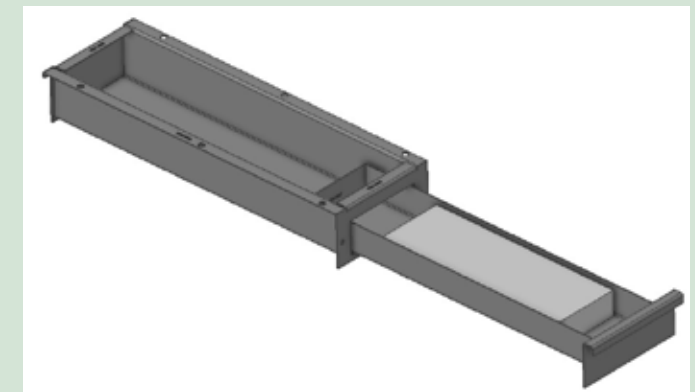

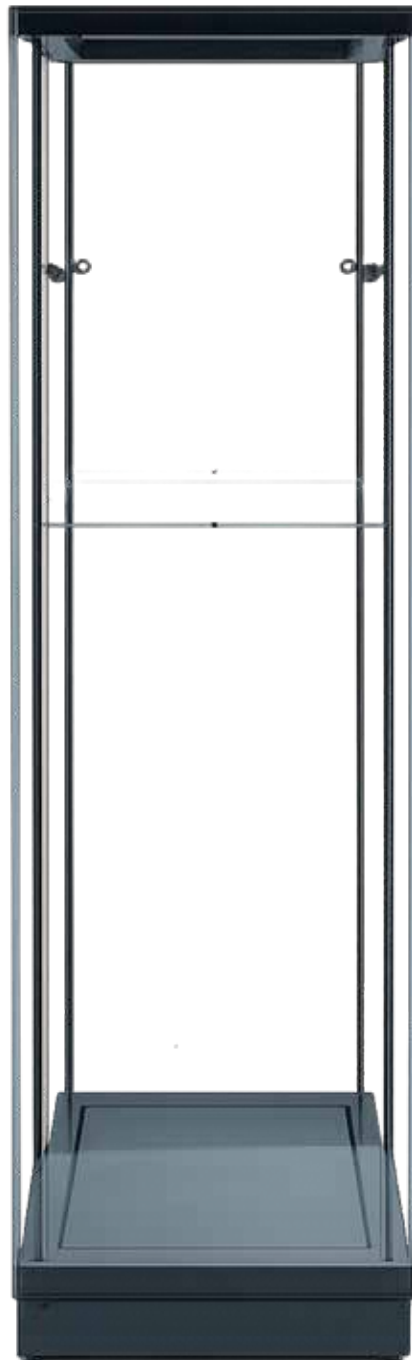

Desiccant Chamber

The passive climate system with silica gel (ProSorb) ensures stable conditions with an air exchange rate of just 0.1 per day - ideal for sensitive objects.

silica gel tray

Versatile applications in museums, galleries, and collections

Module dimensions: 76 x 76 x 205 cm / 30 x 30 x 81 inch (standard)
91 x 91 x 205 cm / 36 x 36 x 81 inch

Glazing:

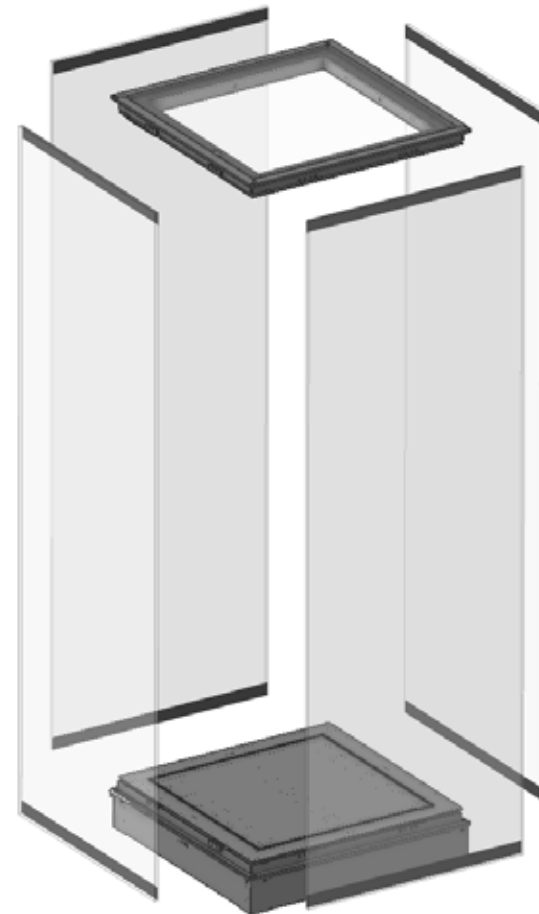

- Standard: laminated safety glass
- extra-clear / low-iron or non-reflective
- 55.4 (11.5 mm)

Standard features:

- Hinged door
- Passive climate control
- **Air exchange rate 0.1/day**
- Movable with pallet jack

Options:

- Lighting (top, bottom, side)
- Shelving
- Security glass up to P6B
