“ simplicity is the ultimate sophistication ”

Leonardo da Vinci

Frank Europe, the innovative German engineering and development group, have built an enviable reputation over the last decade for producing the perfect acrylic demountable showcases for international art & museums projects.

These unique and patented showcases have continually outperformed other manufactures glass equivalents in over 20 categories including cost and short production times.

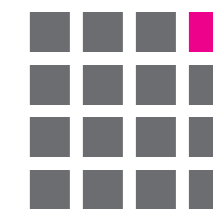

What if you could have all these advantages yet in glass for your permanent or travelling exhibitions? Well that's exactly what the engineers at Frank have produced, it's called **Absolute**.

**Absolute** has been developed in direct response to European curator's requests for an affordable, aesthetic, no compromise best glass solutions.

**Absolute** showcases are available both in standard and bespoke sizes and with all the accessories your project demands, plus a few you might not have thought of!

**Absolute**, for those familiar with the Frank system, it's still child's play to assemble and demount, some might say easier.

Frank is proud to present **Absolute** the best and simplest demountable glass showcase currently available on the planet.
